

SHADELITE SUNSCREENS

Shadelite Box Screens

www.cvsgroup.com.au

CVS Shadelite Box Screens are a solid section shading system made from high quality aluminium.

They can be used for many applications, such as shade canopies and feature screens. They can be installed either horizontally or vertically and can be either connected directly to building structures or cantilevered with outrigger supports.

Most common uses for CVS Shadelite Box Screens are:

- Exterior Plantroom Screens
- Privacy Screens
- Interior Hanging Feature Screens
- Vertical Feature Screens
- Horizontal Sunscreens
- Sunshade Canopies

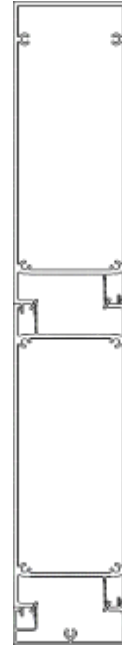

CVS Shadelite Box Screens can be coated in a range of different finishes to suite specific requirements, including warranty and custom colour powder coat through to bright coloured anodising.
