Shadelite Sunshadow Screens

www.cvsgroup.com.au

CVS Shadelite Sunshadow Screens are an extruded curved blade panel system made from high quality aluminium to make a durable, lightweight screen that can be easily be incorporated into a sun shade device or used as an architectural louvre grille.

Most common uses for CVS Shadelite Sunshadow Screens are:

- Plant Deck Screens
- Privacy Screens
- Exterior Sunshade Systems
- Vertical Feature Screens
- Horizontal Sunscreens
- Security Screens

CVS Shadelite Sunshadow Screens can be manufactured in many configurations. They can be produced as continuous line screens, as shade canopies or as individual framed panel screens and blades can be set at various spacing's to assist in the many building usages.

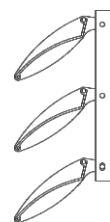

CVS Shadelite Sunshadow Screens can be coated in a range of different finishes to suite specific requirements, including warranty and custom colour powder coat through to bright coloured anodising.
